## Chronicle Located In New Quarters

Moving operations interfered considerably with this week's issue of The Chronicle and it is hoped readers will use the utmost charity in criticizing it. Ordinarily an issue would have been omitted entirely under the circumstances, but as the busiest part of the season was on it was thought best to issue as nearly on time as possible, doing the best possible to make the issue presentable. The Chronicle office is now located in the old Canadian Bank of Commerce building where very desirable quarters have been secured. The old office in the Savoy hotel building will be occupied by S. H. Bain with a grocery store.

## To Open Up-to-Date Grocceteria

E. Latiff has had the old Harper building fitted up in splendid style and will open up with a stock of groceries on Saturday or the first of the week. The premises have been completely overhauled and refitted, and will include a rest room for ladies and an ice cream parlour. F. Bouzyan late of Stavely, who in addition to being an experienced grocery man, is widely known in athletic circles as an outstanding hockey and baseball player, will be in charge.

## Some Wheat Yields Quite Satisfactory

Clarence Davis secured a yield of 24 bushels per acre from 520 acres of Marquis wheat, the quality being excellent. August Siegel had a return of 27 bushels per acre from a quarter section of Garnet wheat. Fred Alder had an average of 18 bushels per acre on his spring wheat. These are fair samples of yields to the west of town.

## W.I. To Meet September 8th

On Tuesday Sept. 8th the Women's Institute will hold their regular monthly meeting at the home of Mrs. R. J. Cowell. The afternoon programme will include a book review by Mrs. J. N. Beaulieu and the delegate's report of the constituency conference by Mrs. Cowell. Roll call—"My favorite book." Refreshment Convener, Mrs. Dean Smith.

## "Flying Frolic" September 6th

A flying Frolic is advertised here for Sunday, Sept. 6th. Parachute jumping by Wild Irish Haddock and stunt flying will be special features. There will be four planes and passengers flights will be made at the modest price of \$2.00 for adults and \$1.00 for children under 12 years.

Mrs. J. H. Matlock has moved to the room over H. Cooper's office and Art Davies has moved from the subdivision to the residence vacated by Mrs. Matlock.

## Stores Will Close Monday, Sept. 7

Monday, Sept. 7th, being Labor Day, the stores in Champion will be closed all day. While in previous years it has been the custom to keep the stores open on Labor Day, as harvest is largely completed it is felt there is no occasion to ignore the holiday this year.

## S. H. Bain to Open New Grocery

A new grocery will open in a day or two in the premises formerly occupied by the Chronicle printing plant. S. H. Bain is the proprietor and brings to the business an experience of fifteen years as credit manager of the Nash-Symington Fruit Co. at Lethbridge. He has secured rooms at the rear of the store as living quarters and is already settled there with Mrs. Nash and family. The Chronicle joins in welcoming such desirable citizens to town.

## Wheat Bonus Term Described

The term "grower," in connection with the payment of the five cent bonus on 1931 wheat, is defined as follows: "Grower means the person who, by means of his own, or labor hired by him, or both, produced the wheat in respect of which the bonus is claimed, and who was or is the owner thereof, or was or is entitled to some share or interest therein, but excludes any person hired or employed by the owner or operator of the farm whereon the wheat was grown, who is paid wholly in money or partly in money and partly by a share of the crop or some interest therein or partly in money and partly by some share or interest in the profits arising out of the farming operations."

## Depot Agents Change Again

G. M. Atkinson, who has been here as relieving agent during the absence of J. S. Collins last week for Manitou, Man., and has been succeeded by O. A. Botter, of Lethbridge. Mr. Botter was in the station here some six years ago and is consequently no stranger. Mr. and Mrs. Atkinson made numerous friends while here who will regret their departure.

## All Schools Opened Tuesday

School opened on Tuesday and there was the usual rush for the many accessories required by pupils, making quite a stir in town. The staff is the same as last year except that there is one less teacher, Miss Archer and Miss Lela Clarkson B.A. who succeeds Miss Melrose. The following teachers are in charge of the country schools adjacent to Champion: Harmony, Miss Agnes Patterson; Hiawatha, Miss Margaret; Long Coulee, Miss Gertrude Roebuck; Sanderson, Miss Sarah Fleming; Yale, Miss Edna McNaughton; Fireguard, Miss Augusta McNaughton.

## Nancy Carroll "Laughter"

Following her amazing dramatic success in "The Devil's Holiday" Nancy Carroll was chosen as the heroine of "Laughter."

Nancy Carroll in one of the most prized and powerful roles of her career.

A story of two reckless lovers in search of happiness and "laughter" without thought of the consequences.

A story of a girl who has everything but—love—and fights for what she wants against tremendous odds.

A blast of fiery drama—with Fredric March as the lover who flouts all conventions to win love!

NOTE—This is Ladies' Guest Night. Every lady buying a ticket may bring another lady free.

## NOTES AND COMMENT

On August 19th No. 1 Northern Canadian wheat was selling for 60¢ in Liverpool. On the same date South Russian wheat was only bringing 53¢. In the long run such a handicap in price should discount even Soviet insistence. If prices were even nearly normal Canada with a 10¢ margin in quality would have a tremendous advantage. Acreage decrease and lighter yields over larger acreage in price should be accounted for in the sowing of the next crop sufficiently to assure better values to wheat producers. At present the United States Farm Board surplus would appear to be one of the big factors in uncertain prices. The assimilation of this grain in some manner would almost assuredly lead to improvement in wheat prices.

Wheat deliveries have continued steadily during the week and while of lighter volume than in previous years have demonstrated the high quality of this year's crop of wheat. Prices, which showed an inclination to rise for a time, have fallen off slightly during the past few days, the hedging of the new grain by dealers being considered the principal cause of this. Harvest operations will be largely over during the next two weeks, combines being used to an unusual extent, largely eliminating the old type of threshing. The weather has been everything that could be desired for rushing the harvest.

Initial shipments of grain from Western Canada to Europe, via Chuchill, commenced last week when 12 cars of No. 1 northern wheat were shipped by Canadian National Railways from Saskatoon. This shipment was used for testing the grain handling facilities of the new 2,500,000 bushel elevator, and further shipments will go north regularly for the loading of the first ship between September 15 and 20, and of the second ship between September 20 and 25.

Reports ending August 31st indicate cutting 35 per cent completed Alberta, 60 per cent Saskatchewan and 85 per cent Manitoba with approximately 5 per cent threshing completed Alberta and Saskatchewan and 25 per cent Manitoba. Scattered points report frost during week but nothing serious indicated. Given normal weather threshing will be completed by middle September in Manitoba about week later in Saskatchewan, and about October 1st in Alberta. Indicated yields of wheat are Alberta 16, Saskatchewan 8½, and Manitoba 10 bushels to the acre.—Searle Grain Report.

What looked more like the arrival of an up to date Noah's Ark, was the landing in Canada last week of the cargo from the Scottish liner, "Athenia," from Glasgow. The shipment was

made up of kangaroos, leopards, flamingoes, owls, snakes, some odd specimens of parakeet and many types of zebras. The shipment, in charge of the Canadian National Express Co., was destined for Toronto, where it was shown as part of the

## BANK CREDIT FOR BINDER TWINE

Premier Brownlee when in Ottawa discussed with the Dominion Government and the Banks the question of credit being made available to farmers where necessary for the purpose of purchasing binder twine. Arising out of the conference at Ottawa, the banks having superintendents in Alberta discussed with Premier Brownlee on August 11th the question of credits for this purpose, and as a result the GOVERNMENT WOULD ADVISE ALL FARMERS REQUIRING BINDER TWINE TO MAKE APPLICATION TO THEIR BANKS FOR CREDIT FOR THAT PURPOSE, EVEN IF AN UNSUCCESSFUL APPLICATION HAS ALREADY BEEN MADE.

\* It is important that applications be made immediately.

## Constant Vigilance Of British Authorities Is Necessary To Suppress Slave Trade In Africa

Those comfortable people who are wont to accept as gospel the slave-trading generalities of opportunistic orators and who, therefore, believe that all is well with the world apart from depression and failure to agree upon disarmament and war debts, may get something of a jolt if they peruse the reports of the recent annual meeting of the Anti-Slavery Society. They have been accustomed to believe that slavery was abolished in all countries with the exception of Liberia. But no less an authority than Mr. J. A. Spender tells us that the menace of slavery is ever-present and that nothing but the constant vigilance and the restraining influence of British rule in the Sudan prevent its revival.

Only a year and a half ago there was a round-up throughout the Sudan by the British, which resulted in the rescue of a number of slaves, the capture of some notorious slave-traders and a further grip by the authorities upon the narrowing channels through which these had been operating. But, as Mr. Spender points out, such round-ups are very expensive, and the Sudan treasury is in no state to stand any strain just now. That in a country as large as Europe slavery should have been virtually wiped out in thirty years is a magnificent tribute to the humanizing and civilizing influences of British rule; but there still remains all over the country a sort of subconscious acceptance of slavery that may not be wholly eliminated for generations.

Primitive people are always drifting across the Sudan, and they all have this conception of slavery in their traditions and in their hearts.

Even today comparatively few of the Sudanese or the Arabs regard slavery as a crime or an offence, but rather as something the British authorities in the Sudan to do not condone and which must, therefore, be concealed or abandoned in toto. Virtually up to the end of the Sudan had been raided and devastated year after year for long generations by slave-dealers. The British changed that, but if their hands were to be lifted from the Sudan tomorrow, slavery would be in full swing again by the end of the year. It is the knowledge that prompts the British authorities in the Sudan to adhere so strongly to their present policy and to deny interference by stay-at-home politicians whose knowledge of the facts is gleaned from fanatics or from a Cook's tour.

### Want Lighter Bales

Popular Demand In For Baled Hay That Is Easily Handled

The Seed Branch of the Dominion Department of Agriculture have received complaints from hay dealers that the present practice of baling farmers of putting up hay in bales of weights of 150 pounds or more is killing the market for Canadian baled hay. Popular demand today is for a light bale that can be easily handled by the buyer, in most cases is a carter or truckman, and is not too heavy the bale on his shoulder to his feed lot. Bales weighing from 110 to 120 pounds will find a much more ready market than heavier bales.

### Say It With Advertising

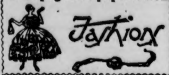

Speaking at a gathering in Montreal L. J. McKenna, member of a well-known florist firm that is advertising was the "lever by which many businesses had been related to success." He is absolutely right in that statement as to "Say it with advertising" is quite as potent as to "Say it with flowers."

Cop—Hey there, don't jam up traffic. Why don't you use your noodle? Sweet Young Thing—I didn't know the car had one.

"And how are your two sons getting on?"  
"Fine."  
"In spite of the trade depression?"  
"Yes, one's an official receiver and the other's a bailiff."—Drummer, *Barney*.

## Honor Indian Hero

Meshkosh, Ojibway Brave and Indian guide attached to the French River Bungalow Camp, is a modest as he is courageous. It is three years since, with heavy odds against him, he rescued Miss Effie Mae Gorman and Dr. J. Schwartz, of Chicago, from the eddies of the Blue Rapids on the French River into which they had been flung from an overturned canoe. He told not a word of his exploit which came at last to the notice of the Royal Canadian Mounted Police. Enquiries were set on foot, the facts came to light and the upshot was the presentation to Meshkosh this month at the French River Camp of the bronze medal for bravery of the Royal Canadian Mounted Police. The presentation was made by the Indian Agent at a gathering of 120 guests of the camp headed by Manager Jack Strathairn, at which the Chiefs of the tribe in full regalia of feather headdress and richly embroidered coats participated. Meshkosh (left, bareheaded), is shown in the photograph with the medal which is being obtained by an Ojibway Chief.

### Ten Year Plan For China Expect Good Crops Next Year

Would Convert China Into One Of The Great Industrial Powers Of The World

A "ten-year" plan for China, intended to accomplish much of what the Five-Year Plan is accomplishing for Russia, has been worked out by the Ministry of Industry.

The plan is intended to convert China into one of the great industrial powers of the world. The program has been submitted to the government. It embraces 14 points.

The scheme is of unprecedented magnitude and importance. If accepted in the form proposed, and if successfully carried out, the economic position of China will undergo a tremendous change.

The plan is presented by the Ministry of Industry in a report, in great detail. That the scheme is ambitious is admitted; that it will encounter many difficulties is fully realized, but that the government can carry this plan through is confidently believed if it can win and hold the people's confidence.

### Ontario Grocers

Grocers Market Council To Launch Selling Campaign

Designed to promote sales of Ontario's grain crop, unusually large this year, a comprehensive selling and advertising campaign will be launched, according to Charles W. Bauer, secretary of the Ontario grocers market council. "Every basket of grapes shipped outside the province will be subject to government inspection to ensure grade and quality," said Mr. Bauer. Ontario grapes would be available all over Canada, he said.

Cramped His Style

A temperance organization in Kansas is getting a bootlegger in jail. The prisoner berated the leader of the organization for ingratitude. "You folks busted up the great temperance movement in this country for years," he said. "I was selling them fellows whiskey that was diluted as high as 75 per cent. and if you had left me alone another month I'd a had 'em drinking pure water."

## Greece Is Now Canada's Second Best Wheat Customer, With Importations Steadily Increasing

### Reindeer Farm At Churchill

Head Of 1,000 Reindeer To Be Shipped North Next Spring

Negotiations are under way between a northern syndicate and an Alaska reindeer company for a herd of 1,000 reindeer to be delivered at Churchill next spring. The reindeer will be brought by boat to Vancouver and will be shipped across the continent to their new home about two miles north of the new bay port of Churchill. The chief business of the syndicate is expected to come from Europe. Reindeers can be shipped alive by the cool bay route to Churchill much cheaper than cattle, and their meat is at a premium on the continent.

Cheap food is provided on the barren lands, the only cost will be three or four Bokimo herders. The rate of increase of these animals makes them among the most profitable stock to raise. The reindeer native to the area around Churchill are inferior to the shipment that will be imported both in hides and sizes. An attempt is being made to get federal aid for the project.

In an interview Mr. Turcott gave an outline of the conditions that exist in Greece the volume of Canadian exports to Greece showed a decided progress.

This progress is attributable to our wheat having been shipped to the Greek market in a quantity never attained previously. Shipments of Canadian wheat to Greece, represented, in 1930, a volume of 9,000,000 bushels, or over one-half of Greece's requirements of foreign wheat, against 7,000,000 bushels in 1929. Larger sales are reported this year.

Other Canadian products sold in the Greek market comprised tinned mackerel, tinned lobster, tinned sardines, dried and smoked fish, flour, tinned apples, and various agricultural implements and machinery, storage batteries, wood-pulp for artificial silk, wallpaper and glue bags.

To complete the picture of Canadian trade with Greece, I shall add that in 1930, our imports amounted to \$10,000 against \$25,000 in 1929, the balance of trade being therefore, highly favourable to Canada.

To Hurry Relief Measures

Credit Of Province Of Saskatchewan Behind Relief Program

To enable the various projects to be started as soon as possible, the credit of the province of Saskatchewan will be placed behind the relief program. Hon. Howard McCallum stated recently.

This will prevent any undue delay in the commencement of the relief projects and provision will be made later for having whatever amounts are expended required by the Federal Government, he said.

The residents of the province in need of aid enabled to benefit immediately, pending further negotiations with Ottawa concerning the distribution of relief costs.

Perhaps one of the most potent causes of the present distress is the tendency to lay stress on rights rather than duties. Yet the real progress of humanity properly depends far more on the conception of duty than on the conception of rights.

A case of a man who gave some of his blood to save his child, and at the same time unknowingly transmitted malaria to the child, has been reported.

One-tenth of the harvested hay crop in the United States is lost each year from spontaneous combustion.

## SALES AGENCY IS CREATED BY ALBERTA POOL

Calgary, Alberta.—The establishment of a provincial sales agency which would operate a seat on the Winnipeg Grain Exchange for selling and hedging purposes, was announced officially by the Alberta Wheat Pool Thursday, August 27. The agency will handle sales of the 1931 Alberta crop and is now in operation.

R. D. Purdy, general manager of the Alberta Wheat Pool, will head the selling department of the Central agency which in the past has had charge of disposition of all prairie grain. The central selling agency will continue to operate under John I. McFarland until the 1930 crop is sold entirely.

The alteration of the Alberta system, said Mr. Purdy, will not affect any arrangements announced by provincial and Federal governments, and the selling agency will be a department of the Alberta Wheat Pool. Farmers could still sell their wheat at the pool elevators and receive the open market price or they could accept the initial pool payment of 35 cents a bushel and receive the balance later. The five-cent per bushel bonus allowed by the Federal Government as a relief measure for farmers would be payable in 1931, whether the farmer sold on pool basis or took the open market price. All grain received by the Alberta selling department would be disposed of through regular market channels, he said.

## Junkers Freight Plane

Big Plane Will Be Used For Freight Cargoes In West

Montreal, Que.—Desired to carry freight cargoes in northwestern Canada, a huge all-metal junkers freight plane has been purchased by Canadian Airways and will be flying to the northwest within a few months, it was announced here.

The new Junkers J17-52, a development of the trim-Albatross plane "Bremen," will be the largest freight plane in Canada. Fully loaded, it weighs four tons, has a 1,000-horsepower engine, a cruising speed of 99 miles an hour, and a range of 2,000 miles, which, by special tanks, can be increased to 3,663 miles. The big plane can be landed at about 47 miles an hour.

## Ban Use Of Benzol

Toronto, Ont.—Use of benzol in Ontario factories has been prohibited in an order issued by Hon. Dr. J. D. McNett, Provincial Minister of Public Works and Labour. The use of benzol has been proven to the department to be injurious to the health of individuals. That it has been demonstrated on the evidence of chemists who have investigated, and the labour department has prohibited the use of benzol," said Dr. McNett.

## May Withdraw Grants

Toronto, Ont.—The Provincial Government in Ontario may have to discontinue the practice of looking to the Provincial Government for financial assistance. This year the usual grants, estimated between \$50,000 and \$100,000, will be maintained.

## Cattle Prices May Be Lower

Ottawa, Ont.—Reporting on conditions now prevailing in cattle markets in the Old Country, the Canadian agricultural products representatives in Great Britain are in a cable to the livestock commissioner here saying: "Cattle markets weaker. Our best hope is strict selection for type and quality of all weights. Lower prices likely."

## May Open Canadian Branches

Montreal, Que.—Six large industrial firms of the British Isles are seriously considering the opening of branch factories in the Dominion during the coming year. F. W. Field, His Majesty's Trade Commissioner, told members of a service club, during an address on the industrial situation in Great Britain.

## Celebrates Birthday

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labour, was 57 years old August 26. From the staff of the department Senator Robertson received a magnificent bouquet of roses, while numerous messages of congratulation came from friends and colleagues. The minister was born in Welland, Ont., on August 26, 1874.

## Will Attend Conference

Mahatma Gandhi Leaves For London

Simla, India.—After months of indecision and "heart-searching," Mahatma Gandhi has announced his "final vote" has told him it would be to India's interest for him to go to London to attend the second round table conference.

At the end of almost three hours' conversation with Viceroy Earl Willington, who left a sick bed to see him, the Mahatma agreed to co-operate with the round table conference.

His decision was based on an attitude of "mutual accommodation and compromise." The Nationalist leader agreed to drop his demand for the appointment of an arbitration board to determine whether there have been breaches of the Delhi armistice and the viceroy consented to institute an inquiry into the alleged excesses of tax collectors in the Haridwar district.

Thus, after nearly 20 years' absence from England, Gandhi will set sail for London with Pandit Madan Mohan Malaviya and Mme. Stojinovic, who will accompany him and reach his destination September 9. He will take aboard his goats to provide him with milk.

## Defends Position

Hon. J. H. Thomas Says Nation's Interest Is Above Party

London, England.—In a letter to the House of Commons, the Labour Party's Derby, the borough which he represents in parliament, Mr. Hon. J. H. Thomas defended himself for following Prime Minister MacDonald and joining the national government.

"I know my action will be misunderstood by many," said Mr. Thomas. "I know full well I should be subjected to criticism and abuse, but I also know the nation's interest, and the Prime Minister's action, are in the public interest."

Mr. Thomas explained he had abandoned his policy and sacrificed most of his principles. "My only policy," he said, "has been to face boldly the grave emergency in the nation's affairs, and to stand ready to remain in the new government only as long as the crisis lasts, and until stability is assured."

He added that in the election which was inevitable, he would "accept the verdict as a consequence of my own action."

## Good Crops At The Pas

Accrue Is Limited But Yield Remarkable

The Pas, Man.—Fully two weeks behind some sections of the southern part of the west, cutting operations started last week on wheat and oil fields here. While there is only a limited acreage in this part of the country the year has been remarkable for the yield to farmers in this district.

Oats have run as high as 50 bushels, while wheat averaged 30 and 35 bushels. This is the fifth consecutive year that grain yields have been good in this area. The Canadian interest is being taken in the possibility of throwing open the Carrol River Valley to settlers. This tri-territorial river has produced sensational yields for years, but as yet, only squatters are working the land, as it is not open to homesteaders. The local Board of Trade has received enquiries from farmers in the southern part of Saskatchewan regarding the possibility of establishing mixed farming in that area.

## Wheat Bonus

Winnipeg, Man.—Farmers are assured of the five-cent bonus on wheat pending arrangements now being made by the Board of Grain Commis- sioners. Le Gault, chairman of the board, stated here recently, Mr. Ramsay's attention had been drawn to a suggestion that farmers who have threshed wheat are withholding it from the market because the machinery for the distribution of the bonus had not yet been perfected.

## Printing Plants Wrecked

Montreal, Que.—Hopefully ruined by sabotage of the printing presses and the firing of the plant, the weekly newspapers Le Monde, Le Charbon and Le Gault will disappear from Montreal journalism. Joseph Menard, joint owner with Adrien Arcand, told members of a service club here at a hearing to probe circumstances surrounding the wrecking of the printing plant.

## Had Stormy Trip

Southampton, England.—Going to visit a storm in the English Channel, the Canadian Pacific liner "Empress of Britain" was unable to call at Cherbourg. When the liner docked at Southampton, Captain Lettis said he had fought bad weather all the way across the Atlantic.

## Historic Sites

Calm Erected To Mark Landing Of

First Landing of British Empire

Sydney, N.S.—To the honored dead of two nations.

This brief tribute, dropped by a squadron of Royal Canadian Air Force Planes, soaring high overhead, epitomized the spirit and thoughts of over 1,200 people gathered on the rocky bluff overlooking Kennington Cove to witness the unveiling by Hon. Frank Stanford, Lieutenant-Governor of Nova Scotia, of the beautiful memorial cairn erected by the Historic Sites and Monuments Board of Canada, to mark permanently the site of Wolfe's landing on June 8, 1758, six weeks prior to the fall of Louisbourg.

Lieutenant-Governor Stanford pulled the cord unveiling the cairn which now permanently marks the site of Wolfe's hazardous undertaking.

## Raise In Gasoline Prices

United Protest From Western Provinces

Calgary, Alberta.—Efforts to bring united protest from all western provinces against increase in gasoline prices were initiated here by directors of the Alberta Motor Association.

The recent advance of one and one-half cents a gallon in the gasoline price was scored by the Alberta directors as unwarranted. Copies of the resolution embodying the criticism are being sent to all motor associations in Manitoba, Saskatchewan and British Columbia, urging similar action to be taken.

## RELIEF PLANS WILL EMBRACE PUBLIC WORKS

Ottawa, Ont.—Canada's Government

is carefully considering a scheme to bring water from the Saskatchewan River to Moose Jaw and Regina, in southern Saskatchewan, according to a statement by Hon. G. D. Robertson, Minister of Labour.

Acting on a message from Hon. Robert Weir, Minister of Agriculture, now in the west, Senator Robertson has recommended to the Department of Public Works that a government engineer be sent to Saskatchewan to examine the possibilities of the proposal. It is expected that after discussing the project, the Minister of Labour said, would not doubt operate to create wide employment facilities in that area.

A tentative agreement has been reached with the province of New Brunswick in the matter of unemployment relief, Senator Robertson said.

Details of the arrangement would, however, not be made public until Premier R. B. Bennett returns from western Canada and the recommendations are approved by the government.

Conferences were proceeding between the minister and representatives of the provinces that after discussing individual requests of the provinces the entire programme will be submitted to the governor-in-council within a few days.

## CLUE TO NUNESSON'S FATE

John Gaucher (left) and L. V. Alles are shown reading the note they found in a cognac bottle off Fire Island. The note, reproduced below, is believed to be from C. M. Nunesson and Major Francois Coll, the intrepid French fliers, who left from Paris on May 8, 1927, on a no-stop flight to New York. They were never heard of again. Translated from the French the note reads: "Sinking at this moment in Labrador." It bears a signature believed to be the

## Preparing To Send Goods To Australia

Good-Will Ship To Leave Montreal

Late In October

Toronto, Ont.—Preparations for the despatch to Australia of a good-will ship, laden with Canadian goods for export to the Commonwealth are under way, according to a statement issued by J. E. Walsh, general manager of the Canadian Manufacturers' Association.

The vessel, "The Canadian Constructor," of the Canadian National Steamship Lines, will leave Montreal October 25, bound for Australian ports. A similar trip by the same ship from Australia to Canada will precede the trip for which arrangements are now under way.

## Joins Up With Gandhi

Ahmadabad, India.—Forewearing the pleasure of the West, Miss Nilla Nanda, 21-year-old daughter of the late George Crane Cook, United States poet and playwright, has joined Mahatma's Gandhi movement for the liberation of India. She is the first Indian National to be admitted to his holy colony, conducted on the banks of the Sacred Sharmali River.

## Destructive Wind Storm

Man Killed and Others Injured When

Tornado Strikes Southern Saskatchewan

Estevan, Sask.—One man was killed, two others injured and heavy damage done to the town of Estevan by a destructive wind storm which swept through Estevan and surrounding districts.

While assisting workmen to pin down a tent during the height of the storm at a construction camp about two miles west of here, Robert Mitchell Henderson, 50, Calgary, partner in the bridge outfit of Messrs. Mitchell Henderson and Henderson, was killed instantly when struck by a flying timber. The missile hit him in the head, fracturing his skull. It has been decided that an inquest is unnecessary.

Louis Gougeon, of Estevan and Dalton McElroy, of Saskatoon, laborers with the construction gang, suffered bruises and shock when struck by flying timbers and were brought to Estevan hospital for treatment.

The terrific gale sent box cars crashing into the round house at the Town-Traffic Club Company Plant, while the roof of the grandstand at the exhibition grounds was ripped entirely off and several barns were blown down. The trestle bridge on the Neptune branch of the C.P.R., five miles from town, was splintered and a garage was blown down. D. L. Irvine residence was torn off.

## Market For Butter

Canadian Dairy Product Is In Demand

In Great Britain

Montreal, Que.—Dairy produce from Canada is very much in demand in Great Britain. The British market can absorb all Canadian dairy farmers can send, Dr. J. A. Riddick, Canada's veteran dairy commissioner, stated here on his arrival from England.

"The prospects for butter especially are good," said Dr. Riddick. "Canadian cheese is also very popular and tops the market in its class."

## SINGLE PURPOSE IS TO RESTORE BRITISH CREDIT

London, England.—The new national government has already got down to its job of laying a firm foundation for British credit. Its opening meeting revealed complete unanimity in its task. It appointed the necessary main committees and proposed to proceed as speedily as possible with the preparation necessary for new legislation.

The method of legislation, it is authoritatively intimated, will be such as to make it effective for immediate operation. It is stated, although not officially confirmed, that in effecting the necessary national government, the necessary main committees and proposed to proceed as speedily as possible with the preparation necessary for new legislation.

Next Wednesday is Ladies Guest Nite at the theatre. Every lady buying one ticket may bring a lady friend free.

Miss Eileen McCallough left for Calgary the first of the week to take up Grade XII work during the ensuing school term.

K. R. McLean, R.O. of McLean & Anderson, Sight specialist, 224-8th Ave West, Calgary will make his monthly visit to Champion, Friday, October 2, at the Drug Store.

Miss Edna Orr and Miss Rheta Campbell are in Calgary writing off supplements to the recent examination. Mrs. Campbell accompanied Miss Rheta.

While visiting here G. C. McMurray of Calgary made a par score over the local golf course, which local golfers assure us is a decidedly remarkable evidence of skill.

Mr. and Mrs. Geo. Harper visited at their farm west of town and also at John Cook's during the latter part of their holidays, leaving for High River the first of week for the reopening of school.

Donald Stephenson received word from the Department of Education that a complete pass in Grade XII had been awarded him on the re-marking of his Latin papers, on which he had failed by only two marks.

Rev. and Mrs. Dawson arrived home on Tuesday from a visit to Banff, where they were able to take in the Highland gathering. Together with a trip to Swift Current this concludes what must have been a pleasant holiday.

Mr. and Mrs. Clark Rhodes returned to Champion the first of the week and will reside here for the present. Mr. Rhodes has just concluded a relieving engagement in a store at Coalhurst, and has not yet secured another position.

A recent visitor here was Thos. Tredway of Crossfield, an old-timer in this section. Mr. Tredway has land interests in this vicinity which result in an occasional visit, which is welcomed by many friends.

Gunder Nerison is making satisfactory progress towards recovery and hopes to be around shortly.

The Len Davis orchestra is scoring a series of triumphs on their coast trip, being greeted with crowded houses.

The long drought still continues and as yet there is slight prospect of a change. Every one is naturally hoping for a wet fall.

Baller Roberts was in town on Friday (Sept. 4), looking well, and feeling fit for anything. He has made a remarkable recovery.

Evelyn Kramer should have been credited with celebrating her eleventh birthday instead of her fourth as was reported in last week's issue. A typographical error was responsible for the difference of seven years.

When the plant is fully installed in its new location The Chronicle will have quarters well above the average of country newspapers. Some days are bound to elapse, however, before everything can be got into shape. Remember the place, the old bank building, opposite the present quarters of the Canadian Bank of Commerce.

We hope subscribers will endeavor to remember their subscription dues this fall. Times are difficult, to say the least, and if obligations in this respect were anything but very small amounts the hope of payment would undoubtedly be greatly lessened. An ambition to survive, if possible, through the winter, anyway, is the motive for the request.

## Wheat Pooling

Alberta Wheat Pool members may pool any portion  
of their wheat or sell any portion at current market  
prices. The choice is left with the individual.

Alberta Wheat Pool Elevators are operated under a  
public license and will handle any grain on an open market  
basis.

If a non-pool grower desires to pool all or any portion  
of his wheat he will be required to sign a Pool contract.  
This contract does not compel him to deliver all or any  
part of his wheat on pool basis. Its purpose is to lay  
down regulations under which the wheat is to be pooled.

See that your wheat is delivered to an Alberta Pool  
Elevator.

### PREMIER BROWNLEE'S STATEMENT:

"A complete cut-off has been made from previous years' operations  
and a settlement arranged as between the Pool, the Provincial  
Governments and the banks. Members of the Pool and farmers  
generally desiring to do so may, therefore, patronize the Pool elevator  
facilities with complete assurance that their grain will be dealt with  
as a separate crop and without in any way being liable for any  
debts or obligations of past years."
